

# Ultrasonic Air Transducers

#10-3300

300kHz Air Transducer  
Module

## FEATURES

- High Sensitivity
- Excellent Sound Pressure
- Modular Design
- Smart Sensor

## APPLICATIONS

- Short Distance Measurement
- Close Object Detection
- Small Level Sensing
- High Freq. Transmitter/Receiver

## TECHNICAL SPECIFICATIONS

Operation Frequency	~ 300 kHz
Operation Voltage	6-12 Volts DC
Operation Current	< 20 mA
Input Signal	Open Collector Pull Down
Output Signal	Digital Echo Signal
Sensitivity	See Cat. #10-3310 Data Sheet
