

## #10-3300

300kHz Air Transducer  
& Module

### FEATURES

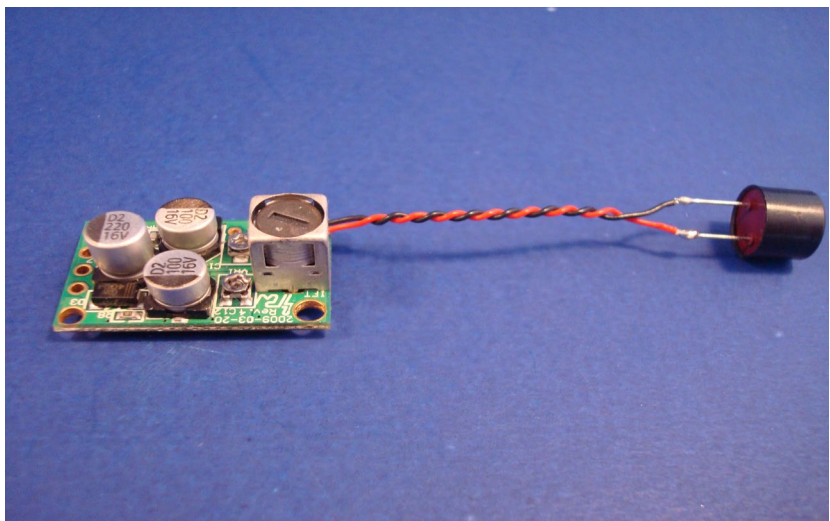

- High Sensitivity
- Excellent Sound Pressure
- Modular Design
- Smart Sensor

### APPLICATIONS

- Short Distance Measurement
- Close Object Detectors
- Small Level Sensors
- High Freq. Transmitter/Receiver

### TECHNICAL SPECIFICATIONS

Operation Frequency	~300 kHz
Operation voltage	6-12 Volts DC
Operation current	<20 mA
Input signal	Open collector pull down
Output signal	Digital echo signal
Sensitivity	See data sheet for Cat# 10-3310

Rev. 6/21/22
